

Bombardier Learjet 60^{XR}

The Learjet 60XR was designed to cater to a specific group of customers - those who require private jets that can climb quickly to high cruise levels, have fast cruise speeds, operate economically, and are reliable. This mid-sized jet with a passenger capacity of 6 is certified to the industry's highest safety standards, providing an exceptionally smooth ride while flying farther, faster, and with more room.

Thanks to its powerful engines, the aircraft boasts a faster climb rate and an impressive top speed of 460 knots. Despite its class-leading performance, the Learjet remains fuel-efficient compared to other mid-size jets, allowing you to fly more and pay less.
