

Bombardier Learjet 60^{XR}

The Learjet 60XR was designed with a specific group of customers in mind - those who demand private jets that can climb quickly to high cruise levels, have fast cruise speeds, operate economically, and are reliable. This mid-sized jet with a passenger capacity of 6 is certified to the industry's highest safety standards, providing an exceptionally smooth ride while flying farther, faster, and with more room.

Thanks to its powerful engines, the aircraft boasts a faster climb rate and an impressive top speed of 460 knots. Despite its class-leading performance, the Learjet remains fuel-efficient compared to other mid-size jets, allowing you to fly more and pay less.

Choose the Learjet 60XR for your business or personal travel needs and experience the ultimate in luxury and performance. With its superior fuel efficiency, powerful engines, and industry-leading safety standards, the Learjet 60XR is the perfect aircraft for those who demand the best.
